

# Infiniti Consulting Group Joins InterVision Systems, Strengthening Their IT and Cloud Portfolio

## With Award-Winning Cloud Services Leader Infiniti, InterVision Can Immediately Deliver Expanded Cloud Capabilities to its Clients

Sacramento, CA -- September 14, 2018

Infiniti Consulting Group is pleased to announce its merger with InterVision Systems. For over 25 years, InterVision has delivered innovation through a broad portfolio of IT managed services, best-premise solutions, professional services, cloud solutions, automation and consulting services that organizations need to thrive in today's dynamic IT market. With this transaction, Infiniti greatly increases its ability to reach more clients and accelerate Infiniti's business plan.

"InterVision has built a robust portfolio of clients for its infrastructure solutions, managed services and professional services that complements our cloud services practice and public sector client base," said Scott Drossos, President of Infiniti. "The combination of InterVision's impressive Managed Services Provider practice, sales coverage and engineers with the Infiniti team of cloud architects and technical specialists brings greater value to both Infiniti and InterVision. We are truly excited about scaling Infiniti's cloud services business to reach new clients, geographies and industries."

"InterVision clients are looking to us to design advanced hybrid cloud and IT architectures that leverage the power of public clouds," said Jamie Lee, Senior Vice President of Sales at InterVision. "With this acquisition, InterVision has greatly enhanced its cloud methodology and cloud professional services delivery. We are excited to take the lead with our clients on end-to-end hybrid cloud strategy to help businesses increase productivity, innovation, and efficiency."

Infiniti has one of the deepest benches of AWS and Azure experts in the U.S. with over 15 years of experience delivering advanced cloud services to hundreds of organizations. Together, Infiniti and InterVision are now well positioned to bring cloud capabilities to even more clients providing end-to-end cloud and IT services to enable their digital transformation. Whether your goal is to integrate and consolidate systems, leverage cloud resources, or drive greater efficiencies from your existing technology investments, Infiniti/InterVision's broad portfolio of solutions and services will help your organization thrive.

### ABOUT INFINITI

Infiniti is a Sacramento based cloud services and IT consulting company with an established and reputable public sector practice. Infiniti focuses on helping organizations achieve their potential by leveraging their people, processes and technology; and prides itself on delivering projects on time and on budget.

### ABOUT INTERVISION

For over 25 years, InterVision has delivered innovation through a broad portfolio of IT managed services, best-premise solutions, professional services, cloud solutions, automation and consulting services that organizations need to thrive in today's dynamic IT market. Regional headquarters are in Santa Clara, CA and St. Louis, MO, as well as offices and datacenters in the Central and Western U.S.
